Seed Pen-wedding celebration gift

Seed is visible. Once it touch water, capsule will dissolve & seed comes out side & seed will germinate.

Seed is not visible. You can feel by touching on it. Once put into soil, paper dissolves & seed germinates.

In some countries, seed import is restricted. Seed of their choice can be fixed by customers at the bottom hole and cover it.

Seed Kept inside the bottom of the pen. Inner diameter of 5 mm. In this model, customers can also insert seed of their choice and just shape it.

A Seed Pen with Metal Refill after Crushing the paper.

Seed Pen with Plastic Refill after cutting with blade.

Seed Pens after use put into soil for seed germination.

**This is a pencil that wants to be a plant when it grows up.**

**When it's too short to use, plant the Seed Pencil to grow from the vegetable, herbs, flower seed in it.**

These are Innovative eco friendly Pencils made from recycled paper.

These can be sharpened like normal pencil. It has different types of germinating seeds enclosed inside capsule.

After finishing the pencil just plant it. A unique gift to any one, in any occasion.
